Tsunami: One of those cats that are nasty to anyone that is not their owner.

Glory: A feisty poodle.

Clay: A Labrador Retriever that is as cute and pure as he is.

Peril: A salamander, the myth types that sleep in fire.

Starflight: A seeing eye black lab.

Sunny: A very small golden retriever that was a little deformed, like she thinks she is. (Imagine her finding this little yellow puppy with only three legs!)

Kinkajou: A very bright colored parrot that she could have long conversations with.

Winter: A hawk for hunting.

Quibli: A small, adorable kitten that Moon gave him.

Moon: A cat that enjoys sleeping on books almost as much as she loves reading them.

Turtle: Alpha fish. Many Alpha fish.

Starflight would want something quite.
But he can't see, so maybe something that
makes noise some he knows were it is.
I think a monkey would be good for
him. Or a frog.

Oof. I would probably have a scavenger because why not? When do you get a pet that dresses ITSELF? I love lizards but I mean, a human? Cool. Also, I support the foundation, "Save the Scavengers".

I think Peril would definitely have a phoenix. They would enjoy flying together and she would be so happy that it couldn't burn, and that it could relate to accidentally setting things on fire. She's probably get really sad every time its life cycle started over and carve out a stone pedestal for its coal egg.

I wonder if she could have a fire dog for her pet. or she should have tons and tons of fireproof blankets turned into a body suit with shoes. i think that would be cool for her. Oh, and a top hat or a regular hat. :)
